### **About the Workshop**

North East Space Application Centre, Umiam, Meghalaya, an unit of ISRO is engaged in the application of Space Science and Technology relevant to the North-Eastern region of India. The one day Brainstorming workshop is being organized to foster institutional collaboration in areas of mutual research interest between NESAC and Dibrugarh University and Capacity Building. The prime objective of the workshop is to highlight the recent developments in Space Science and Technology with focus on its application in various fields like Forestry, Botany, Geology, Water Resources, UAV Remote Sensing, Information Technology, Geo-ICT services, Atmospheric Science and Climate Change etc.

### **Registration**

Interested Faculty members/research scholars are requested to confirm their willingness to participate by sending an email to [bhuyan@dibru.ac.in](mailto:bhuyan@dibru.ac.in) or [bitapkalita@dibru.ac.in](mailto:bitapkalita@dibru.ac.in) on or before 6 November, 2018. Working lunch and tea will be served on the day of the workshop.
